MARCH ESTIMATES AMOUNT TO \$43,015

Harmonious Meeting Of Supervisors Held Last Night

The Supervisors varied the program last night by holding a harmonious meeting and grinding out a lot of routine work. There wasn't a scrap of any kind worthy the name. Archer and Hustace did have a little spat, but it didn't amount to much and soon blew over. Archer's feelings had been hurt by Electrician Frazee, the latter not having thought fit to run after the chairman of the Electric Light Committee and hold a confab with him every little while. As a consequence Archer wanted to cut down the monthly appropriation for Frazee's department from \$1000 to \$750. Hustace rather forcibly pointed out to Archer the impropriety of his conduct and succeeded in whipping him into line and having him place the appropriation at the old figure.

The principal work of the evening was the passing of estimates for the month of March. Plans for spending a total of \$43,615 were made. This is about \$3,000 more than the amount for the month of February, but the County seems to be a little flush just now, so the County Fathers felt that they could afford to be a little more generous in their estimates. Of the total amount \$15,000 goes to the road department.

Garbage wasn't mentioned during the evening, except when the appropriation for the department was being made. Then the fact was brought out that the department is running at less expense than ever before. The estimated expense for March was \$1,100, \$100 less than for the previous month. Hustace expressed some surprise at this and turned to Sam Johnson to ask if he thought he could get along on \$1400. Johnson replied that he could, as since the Pauoa sewer was connected up there was less work for the department to do. For the past two months, he said, the department had not been using up its entire appropriation.

Harvey wanted an extra appropriation of \$100 to oil a piece of road out on Kalaheua avenue. He said he was out there last Sunday and the natives threw dirt on him because the work had not been done before. Dwight promised to see that the road is oiled.

To Make More Juice

It was decided to take steps toward enlarging the capacity of the electric light plant, so as to reduce the lighting bill of the city. The prospective completion of the Nuuanu dam assures a plentiful supply of water. At the instance of Chairman Hustace, Archer moved that the superintendent of the electric light department call for bids for a new belt and water wheel for the electric light plant. He explained that this would probably cost somewhere in the neighborhood of \$3,000. Hustace said the idea is to put in a wheel which will carry 100 more lights.

After this matter had been debated for half an hour, to enable the members of the Board to understand it, it was put to vote and carried. With this matter disposed of, the estimates for the month of March, aggregating \$43,615, were adopted after being read by Archer.

Enforce Curb Ordinance

Deputy County Attorney Milverton returned a reply to the request of the Board for information as to how far the Committee on Roads, Bridges and Parks can proceed in the matter of enforcing owners of land abutting on and adjoining any public street to curb the sidewalks adjacent to the land owned by them. He said in a written communication that under Section 1 of Order No. 1 of the

County Ordinances, it is made the duty of the land-owners to curb the sidewalks at their own expense under penalty of a maximum fine of \$100. He suggested the institution of legal proceedings against such persons as do not comply with the ordinance.

Chairman Dwight of the Road Committee states that it is the intention of the committee to proceed against all persons who neglect to comply with the curbing ordinance.

The Loggohoremen's Union was granted the use of the Aala Park benches for their luau, to be held Saturday. They also got the band for one hour, after which it will play at the opening of the Maunaloa tennis courts. An invitation to the Supervisors to attend the latter was received.

Pass the Buck

The Committee on Sanitation and Health submitted a report passing up to the Board of Health the recommendation of the Civic Federation that the town be provided with public-comfort stations. The report said: "It is our opinion that that duty lies more within the provision of the Board of Health and that an appropriation should have been made by the Legislature to be expended by that Board for the work which your committee is called upon to investigate and report."

"The intimation that the matter of establishing such comfort stations lies within the line of duties of the Board of Supervisors your committee feels to differ. From a financial standpoint, this County can ill afford to set aside any specific appropriation for the purpose, however worthy the object may be from a sanitary standpoint, as large appropriations must be allowed for the ever-increasing road work within the County, for the maintenance of stock in Honolulu as well as in the outside districts and the purchasing of materials necessary to carry out the work. The maintenance of the electric lights and the probable installation of new machinery in the electric light plant will call for an increased expenditure this Board must answer."

"Consideration of the requirements of the other departments should not be lost sight of, so that after a careful canvass of the situation has been made your committee could not see its way clear but respectfully report unfavorably on the subject matter referred to."

The report was adopted.

Monthly Tenders

The bids for the regular monthly supplies were opened, the awards being submitted to the following firms at the prices quoted, the lowest in each case:
Huckfeld & Co.: red bricks, Cal., per M, \$20.25.
Union Feed Co.: feed oats, per ton, \$32.75.

Accounts Passed

The regular semi-monthly accounts for February were passed, as follows: Commission collection road tax: Honolulu \$42.50, Ewa \$35.74; fixed salaries, \$1670; County Clerk, \$170; County Attorney, \$400; Poundmaster, \$30; keepers of parks, \$100; Kapitolani Park, \$158.80; electric light department, \$381.50; police and fire alarm system, \$78.25; police department, \$3262.50; garbage department, \$105; road department, \$742.50; County engineer, \$130; County Treasurer, \$125; County Auditor, \$125; Hawaiian band, \$625; fire department, \$1774.35; coroner's fees, \$12. The next meeting of the Board will be held on March 4.

TANSAN

The agency for a new mineral water called the Tansan has just been taken by Mr. Harry Rosenberg. The water, though new in this territory, is well known all over the country. It is of great medicinal value and comes from the Tansan Mineral Spring in Kobe, Japan. The water is very pleasant to the taste and is especially desirable in aiding digestion. The Japanese women claim that by drinking Tansan water their complexion is greatly improved, and they certainly should know, for this water has been used among the best classes for over 50 years in their country. This proves that the water is crisp, delicious, and invigorating and a water that will surely be appreciated in Honolulu.

For Sale

Several fine Building Lots at Punui, cleared, unobstructed view, proposed extension of car line; 50x105. Reduced to \$150 for a short time; \$25 cash, balance \$10 per m.

Besides other property at greatly reduced prices.
